

Guidelines for Requesting an Herbicide Active Ingredient for Inclusion in the Mode of Action Classification Maintained by HRAC Global

Submission Process

- Company downloads request form from the Global Herbicide Resistance Action Committee (HRAC Global) website. ([Click here](#))
- Company submits request form and background information on the herbicide active ingredient via email to HRAC Global Chair (info@hracglobal.com).

Required background information:

- Common name
- Chemical structure
- IUPAC name
- Molecular weight
- Chemical family
- General mode of action
- Specific site of action
- Supporting data or published paper documenting mode or site of action
- Proposed HRAC MoA Group

Review Process

- The HRAC Global MoA Classification Working Group assesses the classification request.

Approval Process

- If approved:
 - Company receives signed request form from HRAC Global chair
 - Compound is added to:
 - HRAC Global MoA classification master list
 - HRAC Global MoA classification lookup tool
 - GRM App
 - HRAC Mode of Action Classification Poster (at its next update)
 - The classification is announced on the HRAC Global website
- If not approved:
 - Company receives email requesting additional information
